# **DIVISION OF WATER RIGHTS**

#### **ORDER**

APPLICATION _	7294	PERMIT	3973	:	LICENSE	1684
---------------	------	--------	------	---	---------	------

# ORDER CORRECTING DESCRIPTION OF SOURCE AND AMENDING THE LICENSE

#### WHEREAS:

- 1. License 7294 was issued to J.E. Taylor and L.H. Honey and was recorded with the County Recorder of Alpine County on July 20, 1936.
- License 3024 was subsequently assigned to James A. Watt, John P. Watt, Barbara L. Gaffney, James Edward Oliver and Verona Elaine Oliver and Walter Scott Allured.
- 3. A review of the file was conducted by the State Water Resources Control Board (State Water Board) staff on December 28, 1992. It was determined the description for the source has been incorrectly described as being from an unnamed spring tributary to South Fork of American River via Twin Lakes, and therefore should be corrected.
- 4. A correction is needed to the source to conform the description with the location on the U.S. Geological Survey (7.5') quadrangle map Caples Lake.
- 5. The State Water Board has determined the above correction will not initiate a new right nor operate to the injury of any other lawful user of water and that good and sufficient cause has been shown for said correction.
- 6. The license condition pertaining to the continuing authority of the State Water Board does not conform to the current common law public trust doctrine as contained in Title 23, California Code of Regulations, Section 780(a).

#### NOW, THEREFORE, IT IS ORDERED THAT:

 The description of the source under this license be corrected to read:

Unnamed Spring tributary to Unnamed Stream thence Caples Lake thence Caples Creek thence Silver Fork American River

4

License 1684 (Application 7294) Page 2

2. The continuing authority condition under this license be amended to read:

Pursuant to California Water Code Sections 100 and 275, and the common law public trust doctrine, all rights and privileges under this permit and under any license issued pursuant thereto, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the State Water Resources Control Board in accordance with law and in the interest of the public welfare to protect public trust uses and to prevent waste, unreasonable use, unreasonable method of use, or unreasonable method of diversion of said water.

The continuing authority of the Board may be exercised by imposing specific requirements over and above those contained in this permit with a view to eliminating waste of water and to meeting the reasonable water requirements of permittee without unreasonable draft on the source. Permittee may be required to implement a water conservation plan, features of which may include but not necessarily be limited to: (1) reusing or reclaiming the water allocated; (2) using water reclaimed by another entity instead of all or part of the water allocated; (3) restricting diversions so as to eliminate agricultural tailwater or to reduce return flow; (4) suppressing evaporation losses from water surfaces; (5) controlling phreatophytic growth; and (6) installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this permit and to determine accurately water use as against reasonable water requirements for the authorized project. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation.

The continuing authority of the Board also may be exercised by imposing further limitations on the diversion and use of water by the permittee in order to protect public trust uses. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such action is consistent with California Constitution Article X, Section 2; is consistent with the public interest and is necessary to preserve or restore the uses protected by the public trust.

## License for Diversion and Use of Water

LICENSE 1664

PERMIT 3973

APPLICATION 7894

THIS IS TO CERTIFY, That J. E. Taylor of Onkley, Galifornia, and L. E. Heney of Stockton. Galifornia.

ba Ve made proof to the satisfaction of the Division of Water Resources of California of a right to the use of the waters of an unnamed spring in Alpine County

tributary of South Fork of American River via Twin Lakes

for the purpose of domestic use

under Permit 3973 of the Division of Water Resources and that said right to the use of said waters has been perfected in accordance with the laws of California, the rules and regulations of the Division of Water Resources and the terms of the said permit; that the priority of the right herein confirmed dates from Jane 16. 1982:

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to the amount actually beneficially used for said purposes and shall not exceed four hundred (400) gallens per day from about May 1st to about November 1st of each season.

The point of diversion of such water is located North thirteen hundred thirty (1330) feet and West five hundred (500) feet from the southeast corner of Section 18. T 10 N. R 18 R. M.D.B.&M. and being within the NET of SET of said Section 18.

A description of the lands or the place where such water is put to beneficial use is as follows:

Lot 1 (occupied by L. H. Honey) and Lot 2 (occupied by J. E. Taylor) of Twin Lakes Special Use Tract of El Dorado National Forest, and being within the Set of Section 18, T 10 N, R 18 E, M.D.B.&M.

The right to the diversion and use of the water aforesaid hereby confirmed is restricted to the point of diversion herein specified and to the lands or place of use herein described.

This license is granted and said appropriator takes all rights herein mentioned subject to the terms and conditions set forth in Section 20 of Chapter 586, statutes 1913, which is as follows:

Conditions set forth in Section 20 of Chapter 386, Statutes 1913, which is as follows:

Sac. 20. All permits and licenses for the appropriation of water shall be under the terms and conditions of this act, and shall be effective for such as the water actually appropriated under such permits and licenses shall actually be used for the useful and beneficial purpose for which said water was appropriate of the such as the water actually appropriated under such permits and licenses shall actually be used for the useful and beneficial purpose for which said water was appropriate or increased in the said include the neumeration of conditions therein which in substance shall include the same shall actually be used for the useful and beneficial purpose for which said water was appropriate and used under said licenses and the works built or constructed for the permitted of the provision of the state shall have the right to purchase the weight indo you coupled and used under said licenses and the works built or constructed for lighting district, irrigation district, lighting district, or any political subdivision of the state shall have the right to purchase the weight indo you coupled and used under said licenses and the works built or constructed for lighting district, or political subdivision of the state shall have the right to purchase the said actual to the said and the said and the said shall appear to the state water for political subdivision of the state shall have the right to purchase a said termined in such manner as is now as may hereaft etermined in eminent domain proceedings. If it shall appear to the state water from the permittee of licenses, or the hier, successors or saigns of said permitte determined in such manner as is now as may hereaft etermined be such as a said to the permit of licenses and conditions in the permit or licenses as lessed, then and that case the said commission, after the said such permitted and open to further appropriate or licenses are said said permittee or licenses, or the hie
